

BLACK BOAR TRUFFLE OLIVE OIL

Authentic • Chef Driven • Culinary Ready

The mission of Black Boar Truffle LLC is to bring the highest quality truffle products to the culinary world at affordable prices. Having achieved this with the BBT's award winning Truffle Powders and Stock Concentrate, Black Boar Truffle now offers a line of Truffle Oils designed for the manufacturer, professional chef, and home food enthusiast alike. BBT's Truffle oils are both premiere in quality and cost-effective.

BBT White Truffle mushroom flavor and aroma is infused in Olive oil and features the classic rich, complex flavor properties of the Alba Truffle (*Tuber Magnatum*) of the Piedmont district of Italy, often referred to as the "fruit of the woods."

Our Black Winter Truffle mushroom flavor and aroma also infused in Olive oil features the classic deep, rich, earthy characteristics of the pungent Black Winter Truffle (*Tuber melanosprum*) known as the Perigord truffle originally grown in the Perigord region of southern France.

All of our oils are meticulously crafted in small batches and provide the perfect truffle taste and aroma enhancement to your favorite culinary creations.

Just a drizzle of BBT's truffle oil gives your dishes a luxurious flavor and Umami finish. Augment the flavor of recipes dappled with real truffles. Create truffle oil vinaigrettes and dressings for your favorite salads or charcuterie and hard cheeses. Add new depths of flavor to polenta, pasta, potatoes, gnocchi or risotto with just a few drops before serving. Pair BBT's White or Black truffle oil with, eggs, omelets, quiche, or crown your classic eggs Benedict. Infuse sauces and marinades; add to pizza and flatbread preparations to inspire earthy subtleness and complexity. Potato chips, popcorn and french fry snacks will also reach new heights and depths of satisfying flavor with the light-handed addition of our oil after cooking. And of course BBT's Truffle oils provide a delicate and alluring finish to roasted meats, fish, chicken and all proteins which pair well with fresh truffles.

The ease of use and complexity of flavor enhancement which Black Boar Truffle oils, White and Black, promotes, makes them a perfect finishing ingredient for food manufacturers, professional chefs and the home gourmet.
